## DD/S STAFF MEETING

7 April 1970

[REDACTED]

2. Mr. Clarke, O/PPB, has prepared a paper entitled "The Changing Mission." This paper has evolved from the recent weekend meeting of the senior Agency officials. Copy is filed in O-DD/S. Office Heads and Deputies are encouraged to read it there. The paper will not be circulated. It should not be quoted nor should its substance be attributed to that paper. In response to some questions, Mr. Coffey stated that the title is misleading.

3. Mr. Bannerman mentioned the DD/I paper showing charts of the Sources backing up items in the Central Intelligence Bulletin and asked [REDACTED] if he could secure additional copies.

4. [REDACTED] informed the group that, assuming all T/O approvals are received, the Position Control Register as of 1 July 1970 will reflect the FY-71 ceiling.

5. A reduction in American presence in [REDACTED] has been directed by the White House. There is to be a 33% reduction [REDACTED] to be completed by 1 September 1970; and a 25% reduction elsewhere in [REDACTED] to be completed as soon as possible - no later than 30 June 1971. This would mean a reduction at [REDACTED]

## 6. Government-Provided Parking

There is a ray of light on the Rosslyn parking problem. A Comptroller General decision of 9 February 1970 authorizes the United States Government, under certain conditions, to provide parking at government expense. GSA will entertain a letter from the Agency on the matter. OGC and OL are now working on the letter. There may be some obstacles yet.
